APPLICATION OF ART THERAPY IN PSYCHOLOGICAL SUPPORT OF PERSONNEL, EXPERIENCE PROFESSIONAL STRESS

I.A.BARYLYAK

Tver state University

The article presents the results of research work on the psychological support of personnel experiencing professional stress. The question of the use of art-therapeutic methods in corrective and developing psychological measures is discussed. The effectiveness of art therapy methods and means providing psycho-emotional well-being of a person is shown.

Keywords: *professional stress, art therapy, pictorial means, psychological support.*

PSYCHOLOGICAL REGULARITIES OF DEPENDENCE OF PROFESSIONAL DEFORMATIONS OF THE PERSONALITY ON STAGES OF PROFESSIONAL DEVELOPMENT

N.A. Goncharova

St. Petersburg university Ministry of Internal Affairs
of the Russian Federation

Problems of determination, formation and prevention of the professional deformation arising both on early, and at late stages of a professiogenez, and the subject of activity mentioning the emotional and personal sphere are analyzed. The markers of deformations reflecting the general characteristic tendencies of individual and typological features for various stages of a professiogenez which are shown in the form of aggression, a rigidnost, uneasiness and low lability are considered. Results of an empirical research of indicators of professional deformations of the persons which are at various stages of professional development of the personality are stated.

Keywords: *professional deformations, emotional burning out, reliability of activity, violation of professional development, professional development, stressful states.*

THE SYSTEM «THE LABOR SUBJECT – PRODUCTION ENVIRONMENT» AS THE EDUCATIONAL CONDITION FOR THE PSYCHOLOGICAL CONTRACT OF THE EMPLOYEES OF THE ORGANIZATION

E.S. Rebrilova

Tver State University

Presents an analysis of the production environment as the forming condition of the psychological contract and part of the ergative system «Subject of work – the working environment». The production environment at macro-, meso- and microlevels is analyzed, the main components of the production environment are described, assumptions are made regarding the determination of the features of the psychological contract of labor subjects by the components of the production environment.

Keywords: *«Subject of work – the production environment» system, organizational interaction, psychological contract.*

FEATURES OF REALIZATION OF CREATIVE POTENTIAL IN PROFESSIONAL ACTIVITY OF THE FEMALE HEADS

Yu.Yu. Cech^{1,2}, S.I. Filippchenkova², E.V. Balakshina²

¹Psychological Center of Julia Cech, Tver

²Tver State Technical University

Psychological features of manifestation of professional creative potential and also styles of thinking in realization of administrative activity at female heads on the example of commercial and state the organizations are studied. By means of application of the questionnaire of Zeer E.F., Pavlova A.M., Sadovnikova N.O. are revealed features of manifestation of creative activity and initiative in the course of adoption of administrative decisions by women by

heads. Alekseev A. technique, Gromova by L has defined the preferred individual styles of thinking by means of which respondents analyze various situations, decision-making options innervate, synthesize details, the facts about problem situations. The analysis of the results of features of cogitative activity received during psychodiagnostic testing at women of heads has shown that the most preferable styles of thinking at examinees are analytical and realistic. Female heads are creatively active, independent *at decision-making and always rely on own empirical experience*.

Keywords: *initiative; head; styles of thinking, creative potential, manager, administrative activity.*

RESEARCH OF COMMUNICATIVE QUALITIES AND THE STRATEGY OF BEHAVIOUR IN CONFLICT SITUATIONS AT TEACHERS OF THE HIGHER SCHOOL

Yu.Yu. Shaulskaya¹, S.I. Filippchenkova², E.V. Balakshina²

¹Russian State Agrarian University - Moscow Timiryazev Agricultural Academy

²Tver State Technical University

Today orientation to the purposes of state policy in the sphere of the higher education demands considerable changes in the organization of activity of the higher school in general and interactions of teachers and students in particular. Interaction in the teacher student system assumes existence of dialogue communication, interpersonal perception, trust, cooperation. In interaction of the teacher and student quite often there are situations leading to emergence of misunderstanding, misunderstanding and the conflict. Results of a research show that the efficiency of professional interaction in the teacher student system is maintained by the high level of development of communicative competence of teachers of the higher school and also their abilities in due time to settle intense situations. In the course of interpersonal and professional interaction teachers are most interested in prevention and prevention of conflict situations in relationship with students and colleagues by means of rational planning of educational process.

Keywords: *conflict, conflict behavior, teacher, professional communication, strategy of conflict behavior, communicative qualities.*

PROBLEMATIC USE OF MOBILE PHONE IN ADOLESCENCE

V.N. Kolesnikov, Yu. I. Melnik, L.I. Teplova

Petrozavodsk State University

The study examined the problematic use of mobile phones in adolescence. The Russian version of the PUMP questionnaire (Problematic use of mobile phone) were developed for the research objectives. The components of problematic use of the mobile phone and its connections with applications usage, types of activity and some characteristics of educational activity were revealed. It is established that activity in social networks can be a predictor of

problematic phone use. The results of the study show that excessive use of a mobile phone has a negative impact on educational activities.

Keywords: *problematic use of mobile phone, addictive behavior, technological addiction, Internet services, Social network, adolescence.*

THE SCALE OF DIRECTIVITY OF A PERSONALITY TOWARDS THE SELF-DEVELOPMENT IN THE DIFFERENT SPHERES OF LIFE

N.F. Golovanova, I.B. Dermanova

St. Petersburg State University

The article presents the methods of research of a personality's directivity towards the self-development in the different spheres of life, as well as its measurement tools. The authors offer the parallel forms of the tests for the adult and the teenagers, taking into consideration their age specific features. The methods are realized on the sampling: 212 adults (in the age of 19 to 62 years) and 140 teenagers (in the age of 14–16 years). The correlation analysis has shown, on the one hand, the propriety to combine two motivation tendencies in one construct: the motive of interest and the motive of importance, and, on the other hand, has revealed the specifics of their interrelation with the indicators of the psycho-emotional well-being. The methods have demonstrated the acceptable level of the construct- and criterial validity and reliability. The psychometric verification held has proved the acceptable use of the methods for the diagnostics of the directivity towards the self-development for the purpose of research and practice.

Keywords: *self-development, directivity, life sphere, motivation, adult, teenager.*

CORRECTIONAL-DEVELOPING WORK WITH CHILDREN WITH AUTISM DISORDERS

A.L. Sirotuk, A.S. Sirotuk

Tver State University

The article deals with the problem of the organization of correctional and developmental work with children with autism disorders. The main medical and psychological methods of work with autistic children are reviewed. The symptoms of autism at an early age are described. 4 stages of correctional and developing work with autistic children are presented.

Keywords: *children with autism disorders, symptoms of autism, correctional and developmental work, special diet, medical methods, psychological methods.*

INTRINSIC SOCIAL AND PEDAGOGICAL DETERMINANTS OF FORMATION OF INTEGRATIVE PROPERTIES OF EDUCATIONAL SYSTEMS

E.V. Alekhina, O.V. Netsenko

Voronezh State Pedagogical University

The concept of social and pedagogical conditionality of process of formation of integrative properties of educational systems is developed. A research objective is identification and classification of intrinsic social and pedagogical determinants of formation of integrative properties of educational systems. The scientific novelty of a research consists in a specification of theoretical bases of social and pedagogical determinancy of educational systems and justification of social and pedagogical conditions of formation of its special integrative characteristics in a modern educational situation. Authors carry to intrinsic determinants: sociocultural circle of microcommunity, educational environment of establishment, purpose and value of educational system, head and teacher as subjects of this system, infrastructure of social and pedagogical activity of the educational organization.

Keywords: *educational system, concept of educational system, integrative properties of educational system, social and pedagogical determinants, purpose of educational system, subjects of educational system, infrastructure of social and pedagogical activity.*

ON THE CONTENT OF THE PROCESS OF DEVELOPING FUTURE TEACHER'S ETHIC AWARENESS

A.V. Bezdukhov¹, I.A. Noskov²

¹Samara State University of Social Sciences and Education

²Samara branch of Moscow City University

The paper justifies the necessity of overcoming spiritual and moral crisis, generated by globalization, which aggravated traditionally existed in the youth environment negative phenomena and initiated the process of changing cultural codes. It shows the importance and necessity of developing ethical awareness of the future teacher who «recognizes» what is «good in itself and for oneself», reproducing it in itself and in the other, i.e. in the student. The authors prove the possibility of constructing the content of the process of developing ethical awareness in the context of scientific concepts of moral experience as part of social experience, in accordance with the elements of which the elements of the content of education are distinguished. Four elements of the content of the process of developing future teacher's ethical awareness are distinguished adequately to the four elements of moral experience.

Keywords: *teacher, ethical awareness, developing, moral experience, content of the process of developing of ethical awareness, elements of the content.*

PEDAGOGICAL DISCOURSE IN CHANGING SOCIAL AND EDUCATIONAL REALITY

S.N. Makhnovets¹, O.A. Popova², N.E. Orlikhina³

¹Tver Regional Institute of Improvement of Teachers

The article examines some theoretical grounds for the need to form the discursive competence of the teacher and considers the formation and enhancement of communicative competence of teachers within the system of additional vocational education.

Keywords: *pedagogical discourse, communicative competence, deficiencies in the formation of communicative competence.*

METHODS AND CRITERIA FOR THE LEADERS OF THE HUMANITARIAN STRATEGY FOR THE MANAGEMENT OF THE SCHOOL EDUCATIONAL SYSTEM

M.H. Mizova

Ministry of Education, Science and Youth Affairs
of the Kabardino-Balkarian Republic, Nalchik

The methods of mastering the school by the leaders of the humanitarian strategy of management of the educational system of the school are considered: questioning, expert evaluation, creation of intentional situations, observation, testing, interviews, reflection. A classification of criteria and diagnostic indicators as a basis for selecting a system of diagnostic techniques is proposed. The results of monitoring the readiness of heads of educational organizations for the implementation of the humanitarian strategy for the management of the school's educational system are outlined. The conclusion is made about the need to introduce a systematic approach to the monitoring process. The system approach in the selection of diagnostic techniques determines the integrity of the diagnosis, its optimality and practical significance.

Keywords: *development monitoring, humanitarian management strategy, criteria and indicators, methods, head of educational organization, system approach.*

HISTORICAL ASPECT ABOUT DEVELOPMENT OF A MILITARY SPECIALIST'S SPECIAL PHYSICAL QUALITIES BY MEANS OF PHYSICAL EXERCISES

A.S. Ponomarev

Academy of the Federal security service of Russia, Orel

The article reflects the importance of the role of physical exercises in the history of military specialists' training, describes the nature of techniques used in various historical periods and actions that contribute to the saturation of the armies of various states, which are ready for the successful conduct of hostilities by wars. In this paper to achieve the most effective result in the conduct of the struggle with the enemy, the research of literature makes it possible to trace the dependence of the nature of military training on the rapidly depending methods of

conducting military operations and used devices and technologies.

Keywords: *military specialist, physical exercises, special physical qualities, military education, history of development of physical education.*

ESPECIALLY MANNING SPECIALIZED CLASSES AT THE UNIVERSITY

T.I. Romanovskaya, E.A. Kuhareva

Dimitrovgrad engineering and technological Institute-branch of MEPhI

In recent years, the problem of many universities, especially technical, was the problem of recruiting students. Taking into account that one of the criteria of the effective activity of the University is the average score of the exam, there is a problem in attracting students with high scores. To solve this problem, we propose to organize the training of students in specialized classes at the University at the senior level of secondary school. Acquisition of profile classes should be carried out, applying the principle of an integrated approach, according to which the desire of the incoming, his level of training, ability, personal qualities, motivation, «I-concept». In this paper, we elaborated on the concept of differentiation of instruction, adopted the main principle of diagnostics of specialized classes, defined the criteria according to which you need to complete the relevant classes.

Keywords: *career guidance, differentiation of instruction, differentiation of the profile, the profile of learning, integrated assessment, level of training.*

THE PROBLEM OF FORMATION OF VOCAL-CHORAL SKILLS OF SCHOOLCHILDREN IN ADDITIONAL EDUCATION

E.A. Romanyuk

Tver State University

The article investigates the main components of vocal and choral skills: vocal setting, breathing, sound formation, diction, articulation, intonation (system) of participants of vocal ensemble of secondary school. The definition of «vocal and choral skills» is specified. The program of Association of additional education «Vocal ensemble» is considered, diagnostic tools are described: diagnostic tasks, criteria indicators. The levels of formation of vocal and choral skills of schoolchildren according to criteria indicators are determined.

Keywords: *vocal and choral skills, singing, pop vocal, vocal ensemble, exemplary sound, diagnostics, criteria indicators.*

THE MECHANISM OF THE INFORMATION SELF-ORGANIZATION OF THE PERSON

A.V. Rukin

Military Academy of Aerospace Defense named after G.K. Zhukov, Tver

The article deals with the mechanism of information self-organization of a person, identifies the parameters that control the state of the intrapersonal system during self-organization, the behavior of the system at different stages of information interiorization is analyzed, the cycle of information self-organization of a person is modeled.

Keywords: *man, chaos, order, self-organization of a person, point of intrapersonal bifurcation, a cycle of information self-organization of a person.*

FORMATION OF SOCIAL USEFUL CONTACTS AS THE NECESSARY CONDITION OF RE-SOCIALIZATION OF PRISONERS

E.Ja. Tishchenko¹, O.E. Kurenkova²

¹Public Council of the GUF SIN of Russia for the Sverdlovsk Region

²Volgograd Institute of Law and Economics

The issues of ensuring the re-socialization of persons serving sentences in the correctional institution are considered, the tasks of this activity are discussed in the context of the concept of social rehabilitation. Social useful contacts of the prisoner are presented as a significant social resource. The data of official statistics and empirical research are given. The role of certain types of socially useful contacts of the convicted person (education, vocational training, family ties, etc.) is determined in the re-socialization of convicts. The results of the research can be used to improve the social-pedagogical activity and the educational process in correctional institutions.

Keywords: *prisoner, re-socialization, conception of social rehabilitation of prisoners, prison, correctional institution, social useful contacts of the prisoner, the prisoners education, professional training of the prisoner.*

USING THE RESULTS OF ASSESSMENT PROCEDURES FOR THE DEVELOPMENT OF PRESCHOOL EDUCATIONAL INSTITUTIONS

**M.L. Semenova, B.A. Artemenko, I.V. Kolosova,
E.N. Bekhtereva, I.A. Seliverstova**

South Ural State Humanitarian Pedagogical University, Chelyabinsk

The article is devoted to the analysis of the problem of using the results of the procedure of assessing the quality of preschool education. The purpose and objectives of the organizational and managerial activity of the head on the implementation of technological processes of the procedure of internal assessment of the quality of preschool education are defined. The reasons leading to the reduction of the effectiveness of the use of evaluation procedures by the heads of preschool educational organizations are identified. A number of organizational measures to create a complex of scientific and methodological support of internal and external quality assessment, taking into account common methodological approaches to the quality assessment procedure of preschool education are defined. It is proposed to create an education monitoring service, which will be delegated the authority to implement the procedure of

internal assessment of the quality of preschool education. The tasks of this service are determined.

Keywords: *preschool education, quality management, the internal system of preschool education's quality assessment, the results of assessment procedures*

THE PROBLEM OF IMPROVING THE OBJECTIVITY OF INFORMATION ON THE QUALITY OF FUNCTIONING OF SCHOOL EDUCATION

A.P. Silchenko¹, V.M. Monakhov²

¹Gorodenskaya orthodox grammar school, Gorodnya, Konakovo district, Tver region

²Institute for Development Strategy of the Russian Academy of Education

The prognostics and methodological foundations of the modern theory of e-learning, without which the normal development and functioning of the domestic methods of teaching and pedagogical technologies in it education is unthinkable, are presented. The initial ideas about the prospects of didactic potential of technological interaction of the theory of e-learning, teaching methods and positive educational practices are investigated. The functional of the standardized electronic didactic Arsenal is presented, with the help of which it is planned to collect objective information about the quality of the educational process and education in General and to organize for the future state information system.

Keywords: *theory of e-learning, digital school, didactic standardized electronic Arsenal of the teacher, personalized system of correctional work, author's pedagogical technologies, technological map, methodical system of training, technological documentaries, technological monitoring.*

PSYCHOLOGICAL AND PEDAGOGICAL ASPECTS OF FORMATION OF LEGAL CONSCIOUSNESS OF YOUTH INTERNET USERS RESOURCES

N.N. Jarushkin¹, N.N. Satonina²

¹Samara State University of Social Sciences and Education

²Samara State Technical University

The necessity of enhancing the level of legal consciousness of youth and its legal responsibility when using Internet resources to host their informative material aimed at incitement to hatred and humiliation human dignity based on racial, national, religious and other grounds. Demonstrates the importance of all components of the legal consciousness of youth through the basic institutions of its legal socialization. Is a list of specific psycho-pedagogical layout of lawfulness of targeted young people with a view to improving its legal responsibility when using Internet resources to host their information materials.

Keywords: *legal consciousness, structure of legal consciousness, legal responsibility, informational extremism, lawful behavior in Internet resources.*

PERSONALLY ORIENTED APPROACH TO THE PARTICIPATION OF STUDENTS TO THE VALUE «HEALTH» WITHIN THE FRAMEWORK OF DISCIPLINE «PHYSICAL CULTURE»

A.Y. Borisov

Samara State University of Social Sciences and Education

The article justifies the role of education in the preservation and strengthening of human health; the value of «health» as a value of physical culture is considered; the distinction is made between health as a value and the value of health; It is argued that the creation of conditions for the appropriation of the value of «health» by students so that it determines their meaning of life as a value is promoted by a person-oriented approach; substantiate the main points of the person-oriented approach in the context of the problem of involving university students in the value of «health»: orientation to values as more significant than orientation toward ultimate goals, consideration as criteria for evaluating the education of a humanistic ally oriented structure of value orientations that determine the spiritual world of a person; reveals the essence of the person-oriented approach to involving students in the value of «health»; the possibilities of using the personality-oriented approach in the classes of the educational discipline «Physical Culture» for involving students in the value of «health» are shown.

Keywords: *student, personality oriented approach, health, value, physical culture, academic discipline, initiation, meaning, significance.*

STUDENT'S INTERCULTURAL COMMUNICATION IN ORAL SPEECH TRAINING COURSES OF RUSSIAN AS A FOREIGN LANGUAGE

E.A. Gascon

Tver State University

The student's intercultural conversation phenomenon in oral lessons must be taken into account by teachers. It helps to optimize the process of learning Russian as a foreign language. The results of monitoring of the pilot training have led to conclusion about the necessity of the following methods of accounting for this phenomenon: 1) a careful choice of learning material in the lessons should be conducted in accordance with the difficulties and cultural characteristics of the speakers of each language; 2) it requires making not one, but tree different programs, and also coordination of learning material between them because classes in multicultural groups occupy only part of the training time. The described experience can be used in the preparation of training programs for Russian as a foreign language in similar circumstances.

Keywords: *included training Russian as a foreign language, oral speech training, multicultural group, intercultural conversation phenomenon.*

FORMATION OF PROFESSIONAL SKILLS OF THE TEACHER IN THE MEANS OF THEATRICAL PEDAGOGY

E.G. Kashina

Samara National Research University named after academician S.P. Koroleva

The inclusion of theatrical pedagogy in the teaching process of a foreign language has a long and complex history, beginning with active theatricalization of the occupation by the supporters of the direct and natural method and the foreign methodology, from the late 19th and early 20th centuries; Russian student theater performances; theatricalization of classroom and extracurricular activities in the period after 1917 until the complete rejection of creative theatricality and the transition to a rigid algorithmization of studies, tradition; an exemplary pupil, an ideal teacher. In the article, pedagogical activity is regarded as a semiotic field that requires the possession of non-verbal components of communication. The Russian pedagogical school at any time was distinguished by strict discipline and a rigorous system of teaching knowledge. In this regard, the development of theatrical technologies in the teaching of foreign languages is of undoubted scientific interest and is an actual topic in the light of further development of the paradigm of humanistic pedagogy. The materials of this article reveal the role of creativity, improvisation, which allows students to observe the creation of a lesson, the realization of the teacher's creative intent.

Keywords: *creative personality, creative imagination, learner-based and context based approach, role playing in social-context, psychodramatic approach.*

COURSE WORK AS A COMPONENT OF AN INDIVIDUAL TRAJECTORY OF STUDENT LEARNING

E.A. Kurulenko

Samara State Institute of Culture

The article is devoted to the disclosure of the potential of the course work as a type of educational activity that contributes to the development of individual learning paths of the student. The necessary organizational and methodological conditions for the creation of a unified didactic basis for the preparation of coursework at the University are given. Specificity of differentiation of subjects, contents, methods, forms and algorithm of coursework by students of WGSN 51.00.00 Cultural studies and sociocultural projects.

Keywords: *course work, individual learning trajectory, pedagogical technologies of personal development of the student, research work of students, cultural education.*

PREPARATION OF BACHELORS TO PARTICIPATE IN THE IMPLEMENTATION OF SOCIAL PROJECT ACTIVITY IN THE PROFESSIONAL ENVIRONMENT

E.V. Martynova

Central Russian Institute of Management – a branch of the Russian Academy
of National Economy and Public Administration
under the President of the Russian Federation

The article describes the process of the current stage of professionalization of future bachelors of the social sphere. The results of an empirical study of the socio-psychological attitudes of the future bachelors in the motivational and need sphere and the level of their motivational and professional readiness and ability to master social and project competencies as components of innovation activity are presented. The relevance of the study is confirmed by the study of expert opinion on the need for social practice in the relevant personnel. Based on the theoretical and empirical analysis, the organization of training bachelors to participate in the implementation of social and project activities is justified, forms and methods of work in this direction are proposed.

Keywords: *bachelors of social sphere, design competence, motivational and professional readiness and ability, pedagogical conditions, socio-project competence, socio-project activity, social design, socio-psychological attitudes of the individual in the motivational and need sphere, stable positive motivation.*

EVOLUTIONARY-ACTIVITY TRANSFORMATION OF PROFESSIONAL TRAINING OF OFFICIALS

V.M. Nesterenko

Samara State Technical University

It is presented the role of the evolutionary-activity approach in providing a fundamentally new system of training and managing the productive activity of official based on the basis of the intellectual-information support of professional activity. The novelty of the adopted model for the transformation of the process and the content of the training of specialists consists in the use of an activity didactic platform that ensures the generation of actual knowledge in the process of constructing productive personal activity. An analysis is made of the content of the sense-forming characteristics of the activities of the official, which is the basis for developing methods for assessing the effectiveness of vocational training.

Keywords: *evolutionary activity, transformation, didactic platform, innovative values, decision culture, actual invariants, efficiency.*

COMMUNICATIVE TECHNOLOGIES IN FOREIGN LANGUAGE COURSE FOR MASTER DEGREE STUDENTS

S.Yu. Tyurina

Ivanovo State Power Engineering University

The paper describes the experience of communicative technologies application in English

language course for Master Degree students in technical university. The English language course is considered to be the model of interaction in professional discourse. The learning outcome of English language course is development of universal competence stated in new federal state education standards.

Keywords: *communicative technologies, foreign communicative skills, professional interaction.*

COMPARATIVE ANALYSIS OF AUTHORING TOOLS FOR DEVELOPING ELECTRONIC EDUCATIONAL EDITIONS ON SOFTWARE USE

V.S. Zarubina

Tver State University

The article reviews the current versions of the most popular authoring tools: Adobe Captivate 2017, Articulate Storyline 3, CourseLab 3 и Lectora Inspire 17. Functionality and mechanisms of creating demonstration of software and interactive software simulation are tested on free trial versions of these authoring tools which are in open access on the websites of the developer companies. The article gives a comparison of the tools' interfaces, difficulties of mastering them and of the supported publication formats. With regard to screencasting and the ability to model software operation, an analysis is made of how the declared functionality is implemented and how it differs from the corresponding toolkit among competitors.

Keywords: *authoring tool, Adobe Captivate 2017, Articulate Storyline 3, CourseLab 3, Lectora Inspire 17, screencasting, interactive software simulation.*

PSYCHOLOGICAL ASPECTS OF TRUST

D. Popov

Saint-Petersburg university of Ministry of Internal Affairs of Russia

The author substantiates the author's concept of building trust in interpersonal relations. The article also discusses the main aspects of interpersonal trust.

Keywords: *trust, interpersonal situations, interpersonal relationships, establishing trust, a model of trust.*

THEORETICAL AND METHODOLOGICAL BASES FOR FORMING THE PROFESSIONAL INTEREST OF FUTURE SPECIALISTS ON TOURISM IN THE SYSTEM COLLEGE

A.A. Rushchyshina

Professional educational private institution, «Kamchatka Cooperative Technical School»,
Petropavlovsk-Kamchatsky

The article proves the expediency of applying a set of general scientific methodological approaches, such as system, activity, synergistic, axiological, combined with general pedagogical: contextual, personality-oriented and competence for researching the professional training of a specialist in tourism in the system of secondary vocational education. These approaches are disclosed from the point of view of their nature and application in relation to the process of forming professional interest among students of the technical school mastering the specialty of Tourism, which allows to design this process on a productive humanistic basis.

Keywords: *professional interest, future tourism specialists, system approach, activity approach, synergetic approach, axiological approach, contextual approach.*
